Announcement

Hugo Obermaier Research Grant 2008

For the second time, the Hugo Obermaier-Gesellschaft is able to announce its research grant to the value of:

5,000 Euro.

In accordance with the wishes of the endower and the aims of the Society, the intention of this biennially awarded grant is the promotion of excavation projects within the context of Palaeolithic or Mesolithic research. An interdisciplinary approach will be preferred. The endowment is intended to be used for material expenditure. This announcement is aimed at doctoral candidates who, with help of the grant, would be able to carry out their own field project.

Applications should be in German or English and include a thematic description of the planned research project, a work schedule and timetable (not more than 5 pages), a *curriculum vitae* and a list of the candidate's scientific publications. The formal feasibility of the project should be attested by the written consent of the responsible authority (e.g. Denkmalpflege in Germany). Applications should be submitted both in printed form and as files (*Word* or *PDF*) on a CD-ROM.

Applications are to be made to the President of the Hugo Obermaier-Gesellschaft and sent to the address of the administrative office (above). Official announcement of the successful recipient will take place at the Annual Meeting of the Society in March 2008. It is expected that the beneficiary will present the preliminary results of their project at the Society's AGM in the following year.

Final date for submission of applications is 30th July 2007.
