

54th Scientific Meeting of IIPP
ARCHAEOLOGY OF CHANGE
MODELS, PROCESSES, ADAPTATIONS IN PREHISTORY AND PROTOHISTORY
Museo delle Civiltà, Rome EUR
October 23rd-26th 2019

The deadline for submission of submissions and posters to the Secretariat of the Scientific Meeting (riunsc2019@gmail.com) is extended until February 28th 2019. The Scientific Committee is available for information and clarifications about the conference and its sessions

How and why are changes and persistences occurring in pre-protolithic societies?
How are they visible or interpretable by archaeological data?
What are its causes and effects on the environment?
The Scientific Meeting intends to present and discuss these aspects of research involving Italy, even within broader dynamics, or conducted by Italian scholars in other territories.

Scientific Committee: Luca Bondioli, Mauro Cremaschi, Andrea Cardarelli, Savino Di Lernia, Filippo M. Gambari, Elena A.A. Garcea, Carlo Lugliè, Fabio Negrino, Francesco Remotti, Francesco Rubat Borel, Massimo Vidale

Organizing Committee (by the Museo delle Civiltà): Paolo Boccuccia, Gaia Delpino, Alessandra Sperduti, Andrea Zerboni

Secretariat: riunsc2019@gmail.com

The Scientific Meeting will be articulated in the following sessions:

1. Climate, environment and man
2. Dissemination and migration of populations, groups and individuals
3. Hunters and gatherers: subsistence, territory, ideology
4. Technologies: producers, recipients and users.
5. From the first forms of inequality to the first forms of state and proto-urban organizations
6. Differences and contaminations in networks and borders

Furthermore, cultural anthropologists, physical anthropologists and archaeologists will present examples, models, research methods on particular themes for the multidisciplinary comparison in key-notes held within the sessions.

A discussant will moderate the debate on issues raised by communications at the end of each session.

To facilitate the evaluation of submitted proposals by the Scientific Committee, it is recommended that abstract be at least 2,000 characters in length and that they clearly outline the contents of the proposed presentation.

It should be noted that synthetic communications will be preferred, while limited case studies should be presented as posters

The communications will be published in paper format in the series *Studi di Preistoria e Protostoria* of the IIPP. The posters will be published in digital format.

After the Scientific Meeting, all contributions submitted for publication will be subjected to peer review.
